

Manipur Science Congress 2025 at Manipur University, Canchipur, Imphal on 20.12.2025

Shri Ajay Kumar Bhalla, Hon'ble Governor of Manipur inaugurated the Manipur Science Congress 2025, organised by Manipur University in collaboration with the Manipur Science & Technology Council (MASTEC). The Congress is being held under the theme 'Science, Innovation and Climate Change' serves as a vital platform for scientists, researchers, academicians, and students to deliberate on contemporary scientific issues and promote innovation-driven solutions, particularly in the context of climate change. Addressing the inaugural function, the Governor stated that Manipur, with its exceptional biodiversity and unique ecological conditions, serves as a living laboratory for scientific research, particularly in areas such as climate change, biotechnology, sustainable agriculture and environmental studies. He emphasised that science is not merely the pursuit of knowledge, but a vital instrument for addressing pressing global challenges such as climate change, resource depletion and environmental stress, which are increasingly evident through erratic monsoons, floods and heat waves. Prof. N. Lokendra Singh Vice-Chancellor, Manipur University and Smt. Kengoo Zuringla, IAS, Secretary (Science & Technology) and Member Secretary, MASTEC also attended the inaugural function.
